

Platinum Blonde Frisée Salad™

For many years, Blonde Frisée™ has been a signature item here at Babé Farms. A member of the chicory family, Blonde Frisée™ is a head of entirely yellow, delicate tendrils and frilly leaves. Top chefs prize this type of gourmet yellow frisée for its curl, texture and delicious bitter edge! It is excellent for warm or cold salads, sandwiches, avocado toast, and bagels. As an edible garnish, it adds the perfect pop of color and accent to any entrée: steak, chicken, fish, etc.

Our BRAND NEW, Platinum Blonde Frisée Salad™ Salad provides another level of convenience for chefs. Trimmed, pre-washed, and ready to eat this exciting new item is perfect for foodservice and saves time and labor in the kitchen.

Platinum Blonde Frisée Salad

As we finalize our production and supply plans, your estimated purchasing volume will play a crucial role in ensuring a seamless introduction and efficient distribution. We kindly ask that you contact your sales rep as soon as possible to provide us with your estimated weekly purchasing volume.
