

Garden Cut provides fresh cut fruits and vegetables to reduce prep time, provide consistency, while maintaining the highest level of fresh quality produce and food safety.

- **100% Yield**
- **Reduces Labor Cost**
- **Reduces Food Cost**
- **Reduces Risk/Injury**

- **Less Equipment**
- **Less Shrink**
- **Less Space**
- **Less Waste**

- **Increases Food Safety**
- **SQF Certified Facility**
- **Kosher Certified**
- **Organic Certified**

Garden Cut is an SQF certified facility with a fully-documented food safety program to minimize the potential of contamination during receiving, storage, processing, and shipment of products.

Cold Chain is continuously managed from our facility to yours with refrigerated trailers to keep cut produce fresh.

Contact your sales representative to find out how the move to precut produce can enhance safety and reduce costs of your operation.

Our production process:

- Raw goods are placed on prep line for topping, tailing, and coring.
- After prep, product travels into the dicing/slicing machine.
- Cut product is washed, cleaned and exits into spinner baskets for drying.
- Dry product is dropped onto packing table for bagging and sealing.
- Product is checked through the metal detector and then dated, packaged, labeled and placed onto pallet.
