

Fresh Is Everything

July 21st, 2026

Dear Valued Customer,

Taylor Farms has stated that the FDA determined the previously reported positive Cyclospora product test result was a false positive. The specific products identified in the recall were not distributed by Get Fresh Produce.

However, out of an abundance of caution, Get Fresh Produce removed from inventory and placed on hold all products sourced from the affected Taylor Farms Mexico facility. We will continue to monitor updates from Taylor Farms and regulatory agencies before making any decisions regarding these products.

For additional information regarding the Taylor Farms recall, please visit the official Taylor Farms recall page:

[Product Recall Information - Taylor Farms](#)

We are ever thankful for your continued business and are available for any further questions.
